Requirement #1

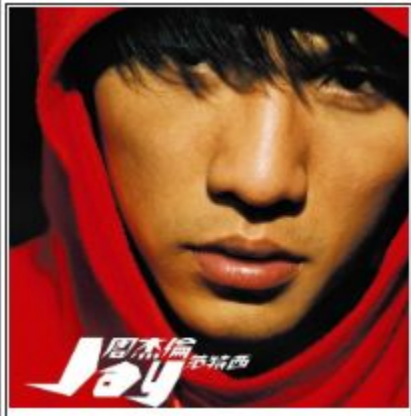

- **Head Section:** The `<head>` section of the HTML should include a `<title>` tag with the format "StudentID_Portfolio", where "StudentID" is replaced by your actual student ID. Example: 105306001_Portfolio.
- **Body Section:** In the **first row** (`<tr>`) of the table, display the page title as "Welcome to _____ Personal Portfolio".
- The title should be placed within a table **header cell** (`<th>`) and wrapped in an `<h1>` tag.
- Set the background color of this row to **as you want**.

歡迎來到小明的個人作品集

example : `<tr style="background-color: #76a1ad" >`

Requirement #2

姓名	王小明
學校	政治大學
科系	資訊管理學系
年級	大一

Create 4 columns and three rows, like the image.

Personal Information

- The **second to fifth rows** of the table will list personal information: name, school, department, and grade.
- **First row:** Include an image (profile picture) and personal details like the name. The profile image will span four rows using `rowspan="4"`. And the image should have an **alternative text** in case the path may not be found.
- **Subsequent rows** will contain labels (like "Name," "School," "Department") and their corresponding details (such as "Wang Xiaoming," "National Chengchi University," etc.).

Requirement #3

學習歷程	
程式語言	• Python 基礎 • HTML 入門
修課紀錄	• 計算機概論 • 程式設計入門

Create 3 columns and 2 rows, like the image.

Learning History

- In the **sixth row**, set the background color and the title to "Learning History."
- **Seventh and eighth rows**: List programming languages and course records using unordered lists (`<ul>`) to display related data, such as "Basic Python" or "Introduction to Computer Science."

Requirement #4

Create 1 columns and 3 rows

Portfolio

- In the **ninth row**, set the background color and the title to "Portfolio."
- **Tenth row**: List the assignment links using an unordered list (<u1>), providing hyperlinks to each assignment (HW1_Github, HW2_DeepDreamGenerator, and HW3_Excel1).
- **Eleventh row**: Display favorite music with links to YouTube songs. Each song link should use an image (such as the Spotify icon) as the music logo, with the song title displayed below each image. Please attach song links to images instead of texts.

Requirement #5

Create 1 columns and 2 rows

Contact Information

- In the **twelfth row**, set the background color and the title to "Contact Information."
- **Thirteenth row**: Provide an email link using the `mailto` attribute, making it clickable to send an email.
- This row also includes an image (e.g., the school logo) representing the university.

Submission Rule

1. File names: **HW5_StudentID.html** (Example: HW1_113356007.html)
2. Deadline: **Nov. 13 (Thur), 11:59pm**
3. Submission method:
 - Submit through the GitHub repo created in Week 3.
 - In your repo, create a folder named **HW5_Portfolio**, place both files inside, and push to GitHub.
 - Submit the GitHub URL to your HW5_Portfolio folder on Moodle.
 - The assignment will strictly follow naming and submission rules. (Same as HW4)
